Earth Science Regents Resources - Science Labs, Science ...

Regents Earth Science is a high school science course that deals with how the Earth formed, its physical features, and its place in the universe. The class meets once each day for lessons and once every other day for labs. Lab activities are a crucial component of the course for many reasons and it is necessary for any missed labs to be made up within one week.

Earth Science Regents. The Circumference of Earth. Copyright 2006 by Steve Kluge. Around 200 B.C., a mathematician living in Egypt named Eratosthenes used a clever method involving observation of the sun in two nearby locations to determine the actual circumference of the earth. In this lab, you will use some modern technology to collect data that you will use to determine the size of the earth without leaving the campus!
