The East Asia and Pacific region (fifteen countries and territories, including six added to those in Table 1) has had its share of infections and deaths, though as a proportion of world totals (as of mid-August 2020), the numbers are very low: about 2.6 percent of cases and 2 percent of deaths. 12 But infection and death tolls do not display ...

### **The “End of Poverty” Illusion: Global and East Asian ...**

East Asia and the Global Economy introduces a theory of "new historical materialism" that explains the success of Japan and other world industrial powers. Here, the authors assert that the pattern of Japan's ascent is essential for understanding China's recent path of economic growth and dominance and anticipating what the future may hold.
