It's well-made, and the materials are high-quality. Unlike conventional key cases (the ones with the little hooks that always eventually fall out), it holds my keys securely -- and with three keys in it, it fits in my hip pocket without making a significant bulge. The only drawback is that getting the keys out of the case requires both hands.

Pocket watches did not always wind and set at the pendant (winding crown or stem). A lot of people are surprised to learn that a key was used at one time. There were many types of keys from fancy ones to advertising ones and the wealthy sported gold ones. There were also ratchet type keys to make winding easier.
