Making Sense of Illness | SAGE Publications Ltd

This introduction to the social psychology of health and illness addresses these and other questions about how people make sense of illness in everyday life, either alone or with the help of others. Alan Radley reviews findings from medical sociology, health psychology and medical anthropology to demonstrate the relevance of social and psychological explanations to questions about disease and ...

psychosomatic views of ulcerative colitis, twentieth century chronic fatigue syndromes, Lyme disease, angina pectoris, risk factors for coronary heart disease, and the type A hypothesis.

Making Sense of Illness: Science, Society and Disease ...

People make sense of illness by interpreting the severity of symptoms and their psychological state (Corbin and Strauss, 1985), assessing risks and making decisions about accessing services. The study found that symptoms that were perceived as sudden, unusual or serious, or that interfered with daily life (such as impaired mobility), often prompted people to seek help.
