on this engine requires the use of a scan tool as part of the procedure. There is no procedure for setting it without a scan tool. The timing for this engine is 15 degrees +/- 2 degrees @700RPM

I need to set up the timing on a nissan H20 engine - Fixya

Many standard DOHC Nissan engines featured Variable Valve Timing, such as the VG30DETT, and as such do not use the "V" designation. "V" designation is only if the engine has variable valve lift. A good example of an engine where not all of the feature designation spots are used is the L28ET engine. The two features listed are electronic port ...
