they would like you to talk them through it or if they have any questions. As you talk through your poster, point to relevant parts of the poster so that people can follow your talk. Try not to put your hands in your pockets or behind your back.

Tips for presenting your scientific poster at a conference

Conference is used to refer to meetings, often organized by academic societies, that invite submissions (usually as abstracts) presenting research findings on an aspect of medicine or science. Such conferences have a scientific (or programme) committee that reviews and selects presentations to be given at the meeting from the submitted abstracts.
