The Trench is a science fiction novel by author Steve Alten, which serves as the sequel to MEG. It was first published in May, 1999. The book continues the adventure of Jonas Taylor, a paleobiologist, studying the Megalodon. Its appetite is ravenous. Its teeth scalpel-sharp. Its power unstoppable as it smashes the steel doors holding it in a Monterey, California, aquarium. The captive 20-ton ...

Plot summary. Jonas Taylor, a paleontologist and former diver, knows what horrors lie deep within the Mariana Trench. He continues to have nightmares about his encounter with the megalodon, an ancient shark that was thought to be extinct and murdered his ex-wife, as well as several others close to him.

The Trench (novel) - Wikipedia

Fortunately, Steve Alten's second outing in Meg's waters does everything right. You get more of what was brilliant about the first book - the characters, the little marine biology lessons, the spectacular set-pieces of shark-on-human action - as well as a general upping of stakes across the board ...

Steve Alten's novel "The Trench" has got to be one of the most pleasant surprises to have hit the bookshelves in a long while. I found his newest novel, the sequel to the equally fun MEG, to be an absolute blast! Dr. Jonas Taylor is joined by most of the cast members from MEG (at least those that weren't eaten), along with a new collection of baddies that readers will love to hate.
