The compelling story of a young woman's emergence into the world after spending her first 13 years strapped to a chair, and her rescue and exploitation by scientists hoping to gain new insight into language acquisition. - Publisher.

Genie: A Scientific Tragedy by Russ Rymer, Paperback ...

Both sides have space to put their views forward and there are no heroes or villains, just a morass of grey on either side. There are discussions of linguistic theory, insofar as it affects Genie's case, and an interesting discussion of Genie's most famous predecessor: Victor, the Wild Boy of Aveyron. In a case which has prompted notoriously vicious attacks, and even court cases, between the scientists, Rymer tries to get at the truth, which surely lies somewhere in the middle.
