Written by two leading political scientists, Governance, Politics and the State is the first systematic introduction to its nature, meaning, and significance.

Governance, Politics and the State by Jon Pierre

The state is a political and geopolitical entity; the nation is a cultural or ethnic entity. The nation state is a state that self-identifies as deriving its political legitimacy from serving as a sovereign entity for a nation as a sovereign territorial unit. The term nation state implies that the two geographically coincide.

Government and the State | Boundless Sociology

Governance beyond the state The literature on the new governance highlights the role of markets, networks, and non-state actors. It thereby weakens the distinction between states and other domains of social order. All social and political regimes appear to depend on a pattern of rule, or form of governance, no matter how informal it might be.

Governance - Governance beyond the state | Britannica

Governance, patterns of rule or practices of governing. The study of governance generally approaches power as distinct from or exceeding the centralized authority of the modern state. The term governance can be used specifically to describe changes in the nature and role of the state following the public-sector reforms of the 1980s and '90s.

Governance | politics and power | Britannica

State government. States governments have the power to make laws on all subjects that are not granted to the federal government or denied to the states in the U.S. Constitution. These include education, family law, contract law, and most crimes. Unlike the federal government, which only has those powers granted to it in the Constitution, a state government has inherent powers allowing it to act ...

Politics of the United States - Wikipedia

It also advocates studying the state in terms of its central role in meta-governance, i.e., in articulating government and governance at different scales and across different social fields.
