Introducing the Lexile Framework® for Listening . Similar to the reading framework, the listening framework is a scientific approach to measuring both students' listening ability and complexity of audio materials on the same Lexile developmental scale.

The Lexile Framework for Reading - Lexile

For example if a student had a percentile rank of 50, it would not mean they have 50% mastery of material but rather it means that 50% of the scores on that same test scored below your score. In fact, a 50th percentile rank is average, the middle of the continuum. A 100 standard score has a 50th percentile rank.

What is in all those numbers (standard scores, percentile ...

National Percentile Ranks(GrdPR or PR) range from a low of 1 to a high of 99, with 50 denoting the national average. A percentile rank tells the percent of students in the norming group who got the same raw score or a lower raw score on the test.

Stanford 10 Test Interpretation

The percentile rank of a score indicates the percentage of scores less than or equal to that score. Percentile ranks range from 1 to 99. For example, if a student scores at the 65th percentile rank, it means that he or she preformed as well as or better on the assessment than 65 percent of the norm group.
