Find the length of the missing side. TIP!  
A 3-4-5 triangle has a hypotenuse ratio of 3:4:5. If you can spot multiples of these numbers, you can solve those problems easily.

$16 + (b = 62 + b^2) = 92 - 36 + 81 - b^2$   
 $45 = b^2$   
 $b = 20$   
 $20^2 + 26^2 = 13^2 + 8^2$
