Catalogs, manuals and any other literature that is available on this site is made available for a historical record only. Please remember that safety standards have changed over the years and information in old manuals as well as the old machines themselves may not meet modern standards.

Oliver Machinery Co. - Publication Reprints ...

Oliver 299-D 24" Planer w/ITCH head, 1942 vintage. Aloha, This planer was already on Maui in a shop right across the street from mine. The guy that had it let a friend of his plane down a sign. They hit about 50 screws and did not have a clue how to fix it. I did not have a clue either but I needed a planer and liked it.

Call Rich at the "Oliver" Eagle factory...there are some from that time frame that are from Taiwan which I understand to be lesser in quality. I am a huge Oliver fan, however there are better planers for the space at no more \$ One example is the Whitney 105/205 eg. Whitney Model S-205 Single Surface Planer Thanks, John Marotta

WTB- Oliver 299-D planer (woodworking) - Practical Machinist

Helical cutter head includes German-made carbide inserts. Carbide inserts are indexed for quick changing. Heavy cast iron construction including extension wings support heavy stock. Table and extension wings are precision ground allowing smooth operation. Top rollers allow easy return of

stock. Four-post design ensures table alignment regardless of stock height. Large hand wheel allows easy ...

16" Planer with Helical Cutterhead - Oliver Machinery

Oliver #299-D 24" Planer with Insert Tooth Cutter Head, 1942. This WWII vet has a 7 1/2 HP motor. It was originally sold to the submarine base in Guam, and I found it in Maui. The Oliver ITCH (inserted tooth cutter head) is an awesome design, those boys in Grand Rapids had it together on this one!
