Pontiac Sunfire Engine Problems

Problem with your Pontiac Sunfire? Our list of 18 known complaints reported by owners can help you fix your Pontiac Sunfire.

Pontiac Sunfire Problems and Complaints - 18 Issues

A sputtering engine can indicate a number of problems. If your Pontiac Sunfire has a sputter, it is most likely going to be caused by bad fuel system, ignition system, MAF sensor, or bad catalytic converter. Your Sunfire's engine is a giant pump. It pulls in air (where it is measured by the mass airflow sensor).

Pontiac Sunfire Forum | Pontiac Owners Group

I have a 1997 Pontiac Sunfire that stalls when the outside temperature gets to high. It is a 2.2L, 5 speed, with 235,000 miles. I have had a computer plugged up and only saw a misfire on the codes. I have replaced all plugs, wires, and coil packs. The engine runs perfect until the temperature outside gets hot, maybe 80 or better.
