### Power Plant Management Guidelines 629433

WASHINGTON (August 31, 2020) — Today, the U.S. Environmental Protection Agency (EPA) announced final revisions to specific effluent guidelines and standards for “steam electric” power plants. The final rule revises a 2015 Obama-era regulation by leveraging newer, more affordable pollution control technologies and taking a flexible, phased-in implementation approach.

### EPA Finalizes Power Plant Effluent Limitation Guidelines ...

Over the past decade, the process of designing and constructing nuclear and fossil-fueled power plants has become increasingly complex. Prior to 1970, Bechtel San Francisco's power division rarely used a project manager when implementing its power-plant projects. Today, however, project managers are the foundation of its project work. This article--authored by two project professionals working ...
