Assemble the R134a recharge kit by attaching the recharge hose to the valve on top of the can. Turn the valve clockwise to puncture the top of the can, allowing vapors to be released. Close the can to prevent loss of extra refrigerant. Connect the R134a recharge hose to the low-side fitting under the hood. Start the engine of the Explorer.

2000 Windstar A/C  
recharge. stryder1.  
06-24-2009, 07:45 AM.  
Early last summer I  
took my windstar into a  
repair shop because  
the A/C wasn't working.  
They said my system  
had no refrigerant in it  
so they did a vacuum  
test and it was fine so  
they refilled my A/C
