Small Turbojet Engines For Sale

The PBS Tj40 advantage is the low weight of 3.3 kg and a thrust of 395 N. The PBS Tj40-G1 jet engine is a single-shaft engine with a one-stage radial compressor, radial and axial diffuser, annular combustion chamber, one-stage axial turbine and outlet nozzle. The output of the generator is 150 W.

Small Turbine Engines - PBS Aerospace

The pioneer of these mini-engines is probably the American engineer Max DREHER, who in the 1960s built a series of small turbines for military or civil applications.. The French company JPX is probably the one that launched their use on a large scale (at a global level for model makers). Since then, competed by many other global companies, JPX has disappeared from this sector to refocus on ...
