## **The Ecology Of Commerce A**

The Ecology of Commerce is a good start. It lays out the direction in which we need to move. The vision is an economy in which the full economic AND environmental costs are factored into the cost of goods and services. This book lays out where we need to go; now we just need to figure out how to make a smooth transition to get there.

The Ecology of Commerce is the provocative national bestseller that addresses the necessity of merging good business practices with common sense environmental concerns.

## **The Ecology of Commerce: A Declaration of Sustainability ...**

An ecological model of commerce would imply that all waste has value to other modes of production so that everything is either reclaimed, reused, or recycled. It would depend not on carbon but chiefly on hydrogen and the sun for its energy. And it would be highly varied and specific to time and place.

The Ecology of Commerce by Paul Hawken deals with the effects of industrialization on the environment. Hawken's takes the point of view that the environment is being destroyed by the economic system.

## **The Ecology of Commerce Summary & Study Guide**

With "The Ecology of Commerce", Hawken probably created one of the most convincing books to go green. As a reader it is fairly hard not to agree with his substantive argument that the time of a new way to practice business and live our lives has arrived.

Although almost a bit one-sided, Hawken's line of argument is
