Identification | The Crown Prosecution Service

In most cases, the prosecution typically proves identity using eye witness testimony. However, eye-witness testimony is the most unreliable form of identification used in court, especially when the eye witness and the person being identified are strangers.

Positive Identification In Criminal Cases | Brian Silber, Esq.

There are 82 DNA exoneration cases in which one eyewitness identification was the only evidence presented, including the cases of Marvin Anderson, Rickie Johnson and Clifford Jones. There are also a significant number of wrongful conviction cases in which multiple eyewitnesses were mistaken and the conviction rested entirely on that evidence.

How Eyewitness Misidentification Can Send Innocent People ...

Using eyewitnesses to identify a suspect as the perpetrator to the crime is a form of direct testimonial evidence that is used for forensic purposes. It is used to establish facts in a criminal investigation or prosecution. Often, it can be the strongest evidence in a criminal case even though it can also be the most unreliable.

Eyewitness Testimony and the Flowers Case

Social scientists have demonstrated through studies since the 1960s that there was significant reason to be concerned about the accuracy of the eyewitness-identification testimony used in criminal trials. Although witnesses can often be very confident that their memory is accurate when identifying a suspect, the malleable nature of human memory and visual perception makes eyewitness testimony one of the most unreliable forms of evidence.

The Trouble with Eyewitness Identification Testimony In ...

The directions and warnings required in relation to evidence of identification are governed by ss 116 and 165 Evidence Act 1995 ("the Act"). The content of those directions, however, are taken mainly from common law cases such as *Dominican v The Queen* (1992) 173 CLR 555 and *R v Heuston* (1995) 81 A Crim R 387.. Section 116 requires a direction to be given to the jury as to the special need ...
